Whole Home	HERS Rated Whole Home ( $\leq 70$ ) <sup>1</sup>	\$400	\$400	per home
Electric Vehicles	Electric Vehicles Connectivity (up to 2 per home) <sup>2</sup>	\$150	N/A	per unit
HVAC System	Smart Thermostats (up to 2 per home)	\$100	\$100	per unit

1 This incentive may only be coupled with Electric Vehicle Connectivity for single-family and may not be combined with any other program incentives.

2 To be eligible for "Electric Vehicle Connectivity" incentive, a dedicated 240-volts (minimum 40-amp rated) electrical circuit and receptacle (and/or an UL 2594 certified electric vehicle charging station) must be installed in a new, single-family home in a garage or similar spaced intended for electric vehicle charging. Third-party vendors and electric vehicle charging businesses do not qualify for this incentive. Limit two Electric Vehicles Connectivity incentives per home submitted.
